

# Mohammad Faizan Shaikh

Mobile Application Developer

skfaizan2301@gmail.com | +91 77559 53765 | LinkedIn | GitHub | Portfolio

## Professional Summary

---

Mobile Application Developer with 3+ years of professional experience designing, developing, and maintaining cross-platform mobile applications. Strong experience with React Native, JavaScript, and TypeScript, along with hands-on exposure to Flutter and native Android development. Comfortable working across the full development lifecycle, from requirement analysis and implementation to debugging, optimization, and production support.

## Technical Skills

---

**Mobile Development:** React Native (CLI, Expo), Flutter, Android (Java, XML)

**Languages:** JavaScript, TypeScript, Java, Dart

**State Management:** Redux, Redux Toolkit, React Hooks, Context API

**Backend & APIs:** RESTful APIs, Node.js, MongoDB, Firebase

**Mobile Capabilities:** Push Notifications (FCM), Maps and Geolocation, Camera, Barcode Scanner

**Tools & Practices:** Git, CI/CD, Postman, Agile/Scrum, Jira

**Architecture:** MVVM, MVC, Modular and Scalable Code Design

## Professional Experience

---

### Frontend Engineer – Khedmah Delivery

2025 – Present

- Working on a production-scale mobile application offering food delivery, dine-out, and pickup services.
- Developing new features, fixing production bugs, and resolving crash issues to improve stability and performance.
- Collaborating with backend engineers, designers, and product teams for smooth API integration.
- Contributing to performance optimization and maintaining clean, maintainable codebases.

### Senior Mobile Application Developer – Moksha Solutions

2022 – 2025

- Developed and maintained multiple Android and iOS applications using React Native, Flutter, and Java.
- Integrated mobile applications with backend services using RESTful APIs.
- Participated in application architecture design, code refactoring, and feature implementation.
- Worked directly with clients to understand requirements and deliver reliable mobile solutions.
- Actively participated in Agile ceremonies including sprint planning, stand-ups, and reviews.

## Selected Projects

---

### Khedmah Delivery (Android and iOS)

*Tech Stack: React Native, JavaScript, TypeScript, REST APIs, Firebase*

- Contributed to a multi-service food delivery platform with delivery, dine-out, and pickup features.
- Improved application stability through consistent bug fixing and crash resolution.
- Delivered UI enhancements and feature updates in collaboration with cross-functional teams.

### **Olive ProHealth & Olive ProHealth Delta**

*Tech Stack: Flutter, Dart, Node.js, REST APIs, Google Maps*

- Developed healthcare-focused mobile applications with features such as doctor consultations and prescription uploads.
- Integrated backend services supporting Q&A forums, blogs, and location-based filtering.
- Followed MVVM architecture for scalable and maintainable application development.

### **M-Attendance**

*Tech Stack: Java, XML, React Native (iOS), REST APIs*

- Refactored legacy code to improve readability and long-term maintainability.
- Fixed performance issues and improved stability for real-time attendance tracking.

### **MGS Delivery**

*Tech Stack: React Native, JavaScript, Node.js, Firebase*

- Implemented barcode scanning, order assignment, and delivery status tracking features.
- Added push notifications to deliver real-time updates to administrators and delivery personnel.

## **Education**

---

**M.E. Computer Science and Engineering** 2024

Everest College of Engineering

**B.E. Computer Science and Engineering** 2022

Everest College of Engineering

## **Additional Strengths**

---

- Strong problem-solving ability with a focus on performance and reliability.
- Clear communicator with experience working in cross-functional development teams.
- Comfortable mentoring junior developers and supporting team collaboration.
- Continuously learning and adapting to new mobile technologies and best practices.
